

Standard and Additional Reports

Standard reports will be provided free of charge to all school districts. Standard reports showing student performance on the State of Texas Assessments of Academic Readiness (STAAR®) assessments are as follows.

1 Confidential Student Report

The individual student report will show performance data for each student on the subject-area tests. In the case of a student taking a combination of tests (STAAR, STAAR L, or STAAR A) all subjects will be combined on the same Confidential Student Report. For end-of-course (EOC) there will be a separate Confidential Student Report for each assessment. (Two copies will be provided in paper format. The Confidential Student Reports will also be available on the STAAR Assessment Management System.)

2 Confidential Student Label

An adhesive label that can be placed on each student's permanent record file will be provided. The label will show overall test performance data for the student in each subject area. For EOC the label will show cumulative history information for students taking STAAR, STAAR L, or STAAR A test versions. (One copy).

3 Confidential Campus Roster—All Students

This alphabetical listing will show individual student performance data. Results for STAAR, STAAR L, and STAAR A will be listed on separate rosters. (This report is only available on the Assessment Management System.)

4 Confidential Campus Roster—Students Not Achieving Satisfactory Performance

For each campus the listing will include only students who did not achieve Level II: Satisfactory Academic Performance. Results for STAAR, STAAR L, and STAAR A will be listed on separate rosters. (This report is only available on the Assessment Management System.)

5 Campus and District Summary Reports

These reports will show the performance of students by campus. The average number and average percentage of items correct for each reporting category will be displayed, as well as number and percentage of students at each performance level. The information provided at the campus level will also be aggregated and reported at the district level. Separate reports will be provided for STAAR, STAAR L, and STAAR A. Constructed Responses Summary Reports are provided and show the number and percentage of students receiving each rating for the written composition and the short answer responses for STAAR and STAAR A. The Combined Summary Report will be provided for each subject and will contain the Level II Satisfactory Performance data for each applicable test version (STAAR, STAAR L, and STAAR A) as well as the total across all applicable test versions for the subject. (Both campus and district summary reports are only available on the Assessment Management System.)

6 Administration Student Data File (Confidential)

This file contains individual data records for each student for whom an answer document was submitted. The student record includes identification and demographic data as well as subject area scores. Reporting Category data are included. Results for STAAR, STAAR L, and STAAR A will be provided on the same file. For EOC administrations, the data file will include cumulative history information for each of the five subjects required for EOC. This file will be provided to all districts in fixed-length text format.
