

2018

**Student
Data File Format
for Student Registration
and Precoding**

Submission Schedule of Student Data Files for the 2018 Calendar Year

Refer to the Calendar of Events for submission window deadlines for the 2018 student registration data files.

Key Changes to the Student Data File Format for Student Registration and Precoding

The following changes have been made to the Student Data File Format for Student Registration and Precoding for 2018.

Changes to STAAR Alternate 2 and TELPAS

- The *LEP-INDICATOR-CODE* field (column U) can be used for the TELPAS administration.
- The *SPECIAL-ED-INDICATOR-CODE*, *GIFTED-TALENTED-INDICATOR-CODE*, and *AT-RISK-INDICATOR-CODE* fields (columns X, Y, and Z) can be used for the STAAR Alternate 2 administration.
- The *CAREER-AND-TECHNICAL-ED-IND-CD* (Column AA) has been updated to include only values 1, 2, and 0. A value of 3, “Participant in district’s tech prep program,” is no longer a valid value for this field.

Changes to STAAR Grades 3–8

- The *GROUP NAME* field (column E) can be used to specify a Group Name for tests being delivered on paper as well as online. This field should only be used to organize test takers into groups; otherwise the field should be left blank.
- For online testing, The *READING TEST VERSION CODE*, *WRITING TEST VERSION CODE*, *MATHEMATICS TEST VERSION CODE*, *SCIENCE TEST VERSION CODE*, and *SOCIAL STUDIES TEST VERSION CODE* fields (columns BD – BG) have been updated to reflect the 2018 Personal Needs and Preferences (PNP) accommodation codes and now include an option for districts to indicate Designated Supports (formerly General Accommodations) for students taking an online test only.
- The *CAREER-AND-TECHNICAL-ED-IND-CD* (column AA) has been updated to include only values 1, 2, and 0. A value of 3, “Participant in district’s tech prep program,” is no longer a valid value for this field.
- Two columns have been added for the STAAR Assessment Management System to indicate a grade 5 or 8 retester that has previously passed one of the two retest subjects (mathematics or reading). These columns are *RETESTER INDICATOR-MA* (column BO) and *RETESTER INDICATOR-RE* (column BP). For grade 5 and 8 retest administrations, if you download a retester file (e.g., District Student Home Campus Report), these columns will be populated if a student has previously met the passing standard for either of the two subjects. These fields are not updatable by districts if the retester file is modified and re-uploaded.

Changes to STAAR End-of-Course (EOC)

- The *GROUP NAME* field (column E) should only be used to organize paper or online test takers into groups, otherwise the field should be left blank.
- For online testing, the *STAAR EOC TEST VERSION CODE* field (column AW) has been updated to reflect the 2018 Personal Needs and Preferences (PNP) accommodation codes and now includes an option for districts to indicate Designated Supports (formerly General Accommodations) for students taking an online test only.
- The *CAREER-AND-TECHNICAL-ED-IND-CD* field (Column AA) has been updated to include only values 1, 2, and 0. A value of 3, “Participant in district’s tech prep program,” is no longer a valid value for this field.

Student Data File Specifications

Submitting Student Data

Student data should be submitted as a CSV file. The most common reason for a failure to process is that the file was not created as a CSV file. Excel spreadsheets are not accepted, and simply renaming an Excel spreadsheet to CSV will not work. See below for instructions on creating CSV files.

NOTE: Some fields are not applicable for some programs; those columns should be left blank.

An addendum is available, starting on page 30, listing all fields in CSV column order. The addendum may be used to quickly determine which fields are available on the data file for each testing program. Refer to the Student Data File Format section for required fields.

Creating CSV Data Files

PEIMS Data Element ID numbers and codes that correspond to columns are listed on the following pages. All fields are alphanumeric. Data that are missing or not applicable are represented by blank columns.

An Excel template, *2018 Student Upload Registration-Precoding Header Template*, is available for use at <http://www.TexasAssessment.com/technology>.

When your file is complete, save the file to your desktop or to a file directory. When saving, choose to save as a “CSV (Comma delimited) (*.csv)” file type.

NOTE: Depending on your software, you might have several CSV file types from which to choose. PC users can select any CSV file type; however, Mac users must select the “CSV (Windows)” file type to avoid errors in their file submission.

See the instructions below for prompts you may see when saving your file as a CSV:

- If you are prompted with a message about multiple sheets, click OK.
- If you are prompted with a message about the format of your file, click Yes.

General Student Registration Procedures

For help with creating a data file, registering students, and resolving error records, go to <http://www.TexasAssessment.com/technology/>.

For questions about STAAR grades 3–8 or EOC:

Contact the Texas Assessment Support Center

By phone: 1-855-333-7770

By email: STAAR3-8@ets.org or STAAREOC@ets.org

For questions about STAAR Alternate 2 and TELPAS:

Contact the Customer Service Center

By phone: 800-627-0225

Refer to the administration procedures below to create a student data file upload to register students, or update currently registered students for a specific administration.

STAAR Alternate 2

Use the information below to validate the STAAR Alternate 2 student data file prior to uploading to the Assessment Management System.

1. Grade levels for this administration should include only grades 3–12.
2. The following fields are required on the student data file:

Grade
Campus ID of Enrollment (County/District/Campus Number)
District Name
Campus Name
Student Name fields (Last Name, First Name) **NOTE:** Middle initial not required
PEIMS-ID
Date of Birth

3. Sex Code is required for new students only.
4. The End-of-Course Code (Course Code) field is mandatory for all students in grades 9–12.
5. For the following fields, if left blank, the system will try to match the student in the Student Directory. If a match is found, it will populate these fields with information in the Student Directory.

Hispanic-Latino-Code
American-Indian-Alaska-Native-Code
Asian-Code
Black-African-American-Code
Native-Hawaiian-Pacific-Islander-Code
White-Code
Economic-Disadvantage-Code
Title-I-Part-A-Indicator-Code
Migrant-Indicator-Code
LEP-Indicator-Code
Bilingual-Program-Type-Code
ESL-Program-Type-Code
Special-Ed-Indicator-Code
Gifted-Talented-Indicator-Code
At-Risk-Indicator-Code
Career-And-Technical-Ed-Indicator-Code

6. If students are enrolled in more than one course with a corresponding EOC test, they will need to have multiple records on the data file. List each student for each assessment for which they are to be registered.
7. Home County/District/Campus Code (Reporting CDC) should only be provided if the student is testing at a different campus from the campus of enrollment.

Student Data File Format Cross-Reference STAAR Alternate 2

TELPAS

Use the information below to validate TELPAS student data files prior to uploading to the Assessment Management System.

1. Grade levels for this administration should include grades K–12.
2. The following fields are required on the student data file:

Grade
Campus ID of Enrollment (County/District/Campus Number)
Campus Name
Student Name fields (Last Name, First Name) **NOTE:** Middle initial not required
PEIMS-ID
Date of Birth
TELPAS Code

3. Sex Code is required for new students only.
4. For the following fields, if left blank, the system will try to match the student in the Student Directory. If a match is found, it will populate these fields with information in the Student Directory.

Hispanic-Latino-Code
American-Indian-Alaska-Native-Code
Asian-Code
Black-African-American-Code
Native-Hawaiian-Pacific-Islander-Code
White-Code
Economic-Disadvantage-Code
Title-I-Part-A-Indicator-Code
Migrant-Indicator-Code
LEP-Indicator-Code
Bilingual-Program-Type-Code
ESL-Program-Type-Code
Special-Ed-Indicator-Code
Gifted-Talented-Indicator-Code
At-Risk-Indicator-Code
Career-And-Technical-Ed-Indicator-Code

5. The Group Name field is needed to load student records into selected groups of your choice. If this field is left blank, all students will have a generic group name of “No Group Name Given,” and students will be grouped by campus. It is advised to provide the Group Name field on your files so students will be grouped by more than just the campus level.
6. Years in U.S. Schools is a field you can populate on your data file if you want to have it preloaded. This field cannot be pulled from PEIMS submissions. It can only be preloaded through your Student Data File submission. If left blank, the district will need to update each student record to supply this information in the Assessment Management System.

7. The Test Format field should be left blank. The system will default this to O for online testing.
8. The TELPAS Code is a required field and must be present for each record. Verify that the appropriate TELPAS Code has been entered on each student record.
9. The Unschooled Asylee/Refugee and Students with Interrupted Formal Education (SIFE) Codes are not mandatory fields, but these fields can be populated on your data file if you want them preloaded. If any of these fields are left blank, the system will default that field to N for No.
10. Home County/District/Campus Code (Reporting CDC) should only be provided if the student is testing at a different campus from the campus of enrollment.

STAAR Grades 3–8

Use the information below to validate STAAR grades 3–8 student data files prior to uploading to the Assessment Management System.

1. Grade levels should include grades 3–8 that will be testing in the 2018 April and May STAAR test administrations.

2. The following fields are required on the student data file:

Grade
Campus ID of Enrollment (County/District/Campus Number)
District Name
Campus Name
Student Name fields (Last Name, First Name) **NOTE:** Middle initial not required
PEIMS-ID
Date of Birth
Sex Code

3. For the following fields, if left blank, the system will try to match the student in the Student Directory. If a match is found it will populate these fields with information in the Student Directory.

Hispanic-Latino-Code
American-Indian-Alaska-Native-Code
Asian-Code
Black-African-American-Code
Native-Hawaiian-Pacific-Islander-Code
White-Code
Economic-Disadvantage-Code
Title-I-Part-A-Indicator-Code
Migrant-Indicator-Code
LEP-Indicator-Code
Bilingual-Program-Type-Code
ESL-Program-Type-Code
Special-Ed-Indicator-Code
Gifted-Talented-Indicator-Code
At-Risk-Indicator-Code
Career-And-Technical-Ed-Indicator-Code

4. The Group Name field is used if you chose a sort order other than by campus/grade/student alpha order to receive your precode materials. If you provide a Group Name for the student, your precode materials will be sorted by campus/grade/Group Name/student. Any student without a Group Name will be given the default group “NO GROUP NAME GIVEN”. If you want to have your precode materials sorted by just campus/grade/student alpha order, leave the Group Name field blank.

NOTE: The Group Name will also be used as the default online test group name if no online test group name is provided for a subject. This field should only be used to organize test takers into groups; otherwise the field should be left blank.

5. The Reading Test Version Code, Writing Test Version Code, Mathematics Test Version Code, Science Test Version Code, and Social Studies Test Version Code fields will be used to indicate the following for STAAR grades 3-8:

PNP accommodation codes:

- E = Spelling Assistance (delivered online for grades 4 and 7 writing only)
- R = Content and Language Supports (delivered online)
- T = Text-to-Speech (includes click word, delivered online)

Designated Supports (online testers only):

- D = Designated supports for a student testing online

Online test with no accommodations:

- O = Student will test online with no PNP accommodations

NOTES:

- The applicable Version Code field(s) should be left blank for students testing on paper.
- Not all accommodations may be available for all tests.
- Accommodations codes can be entered in the Test Version Code field(s) in any order, with no punctuation. Each Test Version code field may contain up to 3 accommodations codes for tests other than writing, or up to 4 for grades 4 or 7 writing. For example: TR in this column is for a student who requires Text-to-Speech and Content and Language Supports. The test will be delivered online.
- A value of E (Spelling Assistance) should only be entered for grades 4 or 7 writing; this accommodation is not available for any other grades 3-8 assessments. For example: ER in column BI (Writing Test Version Code) is for a student who requires Spelling Assistance and Content and Language Supports.
- For online testing with no PNP accommodations, O must be entered.
- To modify Version Code field(s), enter all the codes for the student. The previous codes will be replaced by the new set.

6. The Above Grade Code field is used if a student is testing above grade level for a specific subject. If a student is indicated as needing an above grade level assessment, you will receive both the enrolled grade answer document and the above grade answer document in your precode materials.

NOTE: Students testing above grade level must be registered for each administration in which they will test. For example, a 7th grade student taking grade 8 mathematics should be registered in each of the following administrations:

- April 2018 Grade 7 Writing
- April 2018 Grade 8 Mathematics (above grade level)
- May 2018 Grade 7 Reading

7. Column BH, Home County District/Campus Code (Reporting CDC) should only be provided if the student is testing at a different campus from the campus of enrollment.

NOTE: if column B (Campus-ID-of-Enrollment) and column BH (Home County/District/Campus Code) are different, the system will default the student to testing at the campus in column B and reporting to the campus in column BH.

8. For each subject being delivered as an online test, districts can specify an Online Test Group Name. All students in the group will be listed in the same online test group. If no online test group is specified for a subject, the Group Name in column E will be used. If Group Name is not provided, then the default group “NO GROUP NAME GIVEN” will be used for the online test group name.

NOTE: Online test group names entered for tests that are not delivered online will be ignored.

9. Action-Indicator will be used for STAAR grades 3–8 registrations.

NOTE: Registrations for paper testing uploaded during the precode window for an administration will generate precoded answer documents and cannot be deleted after the precode deadline. Additions and updates made after the precode deadline for an administration will not impact the precoded documents districts will receive. Unused precoded answer documents must be voided.

10. To register a grade 5–8 student for an EOC test, use the STAAR EOC student data file for the EOC test(s) and use the 3–8 data file for the required 3–8 tests. Unused precoded answer documents for grades 3–8 must be voided.

11. If a retester file (e.g., the District Student Home Campus Report or District Student Test Campus Report) is downloaded from the STAAR Assessment Management System, the Retester Indicator - MA and Retester Indicator - RE fields (columns BO and BP) will be auto-populated with a P for any student that has previously met the passing standard for one of the subjects (mathematics or reading) but needs to test the other subject during a retest administration (May or June).

NOTES:

- These indicator columns are for informational purposes only; districts cannot create registrations or update these indicators by uploading values in these columns.
- A blank in either column indicates the student has not yet met the passing standard for that subject and is registered for the subject area test. Blanks in both columns indicate the student is registered for both subject area tests.
- To retain this registration for a student who is new to a campus or district and has previously met the passing standard in one of the subjects, use the Action Indicator (column AS) to transfer the student to the proper campus and/or district, rather than creating a new registration.

STAAR End-of-Course

Use the information below to validate STAAR EOC student data files prior to uploading to the Assessment Management System.

1. Grade levels for the April, May, June, and December administrations should only include grades 5–12.
2. The following fields are required on the student data file:

Grade

Campus ID of Enrollment (County/District/Campus Number)

District Name

Campus Name

Student Name fields (Last Name, First Name) **NOTE:** Middle initial not required

PEIMS-ID

Date of Birth

End-of-Course Code (Course Code)

Test Format (Choose paper or online testing mode; for students with PNP accommodations, enter O in the Test Format field.)

Sex Code

3. For the following fields, if left blank, the system will try to match the student in the Student Directory. If a match is found, it will populate these fields with information in the Student Directory.

Hispanic-Latino-Code

American-Indian-Alaska-Native-Code

Asian-Code

Black-African-American-Code

Native-Hawaiian-Pacific-Islander-Code

White-Code

Economic-Disadvantage-Code

Title-I-Part-A-Indicator-Code

Migrant-Indicator-Code

LEP-Indicator-Code

Bilingual-Program-Type-Code

ESL-Program-Type-Code

Special-Ed-Indicator-Code

Gifted-Talented-Indicator-Code

At-Risk-Indicator-Code

Career-And-Technical-Ed-Indicator-Code

4. The Group Name field is used if you chose a sort order other than by campus/subject/student alpha order to receive your paper testing precode materials. If you provide a Group Name for the student, your precode materials will be sorted by campus/subject/Group Name/student. Any student without a Group Name, will be given the default group "NO GROUP NAME GIVEN". If you want to have your precode materials sorted by just campus/subject/student alpha order, leave the Group Name field blank.

NOTE: This field should only be used to organize test takers into groups; otherwise the field should be left blank.

NOTE: The Group Name field will also be used to name and populate online testing groups.

5. The STAAR EOC Test Version Code will be used to indicate the following for STAAR EOC:

PNP accommodation codes:

E = Spelling Assistance (delivered online for English I, English II, and English III only)

R = Content and Language Supports (delivered online, not available for Algebra II or English III)

T = Text-to-Speech (includes click word, delivered online)

Designated Supports (online testers only):

D = Designated Supports for a student testing online

NOTES:

- Not all accommodations may be available for all tests.
 - Accommodations codes can be entered in the Test Version Code field in any order, with no punctuation. Each Test Version code field may contain up to 3 accommodations codes for tests other than English I, English II, or English III; up to 4 for English I, English II, or English III. For example: TR in this column is for a student who requires Text-to-Speech and Content and Language Supports. The test will be delivered online.
 - A value of E (Spelling Assistance) should only be entered for English I, English II, and English III; this accommodation is not available for any other EOC assessments. For example: ER in column AW (EOC TEST Version Code) is for a student who requires Spelling Assistance and Content and Language Supports.
 - To modify the STAAR EOC Test Version Code, enter all the codes for the student. The previous codes will be replaced by the new set.
 - Students may test online with no accommodations by leaving the EOC Test Version Code blank, and entering O in the Test Format-EOC field.
6. If students are enrolled in more than one course with a corresponding EOC test, they will need to have multiple records on the data file. List each student for each assessment for which they are to be registered.
 7. Home County/District/Campus Code (Reporting CDC) should only be provided if the student is testing at a different campus from the campus of enrollment.

NOTE: if column B (Campus-ID-of-Enrollment) and column BH (Home County/District/Campus Code) are different, the system will default the student to testing at the campus in column B and reporting to the campus in column BH.

8. Action-Indicator will be used for STAAR EOC registrations.

NOTE: Registrations for paper testing uploaded during the precode window for an administration will generate precoded answer documents and cannot be deleted after the precode deadline. Additions and updates made after the precode deadline for an

administration will not impact the precoded documents districts will receive. Unused precoded answer documents must be voided.
